Messus. Monton & Griewolm:

Gentlemen: I have received Goodrich's series of School Readers, revised soot, I may add, greatly haproved, by Noble Builer, which you did me the bonor to send to me. They are an admirable series: In my opinion, insurpassed in the whole cathlogue of English school books, in every element which cao commend them to public favor. I have examined them with great care, and have had my admiration constantly excited not only for their beautiful typography and mechanical execution, but for the intrusic excellence of every lesson from beginning to end. They ought to be in the hands of every district scholar in the State and throughout the West and South.

Wishlug yound tho success y so well merit, I am, very respectfully, your obedieutouservant.

or nearly aft in entitivation, he would only their requires stable and lots swittlent for his work stock, dispensing with fencing entirely.

From the entitivation of corn and beface alone from the to eight hundred dollars to the hand annually may be made by selling in the usual way in the home market; but with the advantages for raising stock, lo use the ship, and with the large leafy lobacen grown upon this land, so very snituble for str.ps, if the proprietar would distill his corn and stein his tobaceo, the profits would he greatly increased.

Upon this Island negroe property is comparatively sate, as there can be no going or coming without permission, and negroes are free from the bad example of other negroes or the bad nelveo of white neen.

By some one of the numerous packets palssing this property, persons may at triting expense go to or from it at almost any hour they may desire.

For the truth of the main neets stated above, I would refer to the flow. Archithall Pixon or Vol. D. R. Burlands, who are both well nequainted with this property and are experienced in Ohio river buttom farming.

Ague Cure, FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Agne, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilions Headache, and Bilions Pevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of miasmatic countries. No one remedy is lomler called to by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in my quan-

That which protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the miasmatic poison of Fever and Agun from the system and prevents the development of the disease, if taken on the first approach of its programitary symptoms. It is ment of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fryer AND AOUE prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains the Chippen or mineral consequently it protain cure of Intermittents is, that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Aguels not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysteries, Pain in the Bowels, Colic, Paralysis, and Derangement of the Stomach, all of which, when originating in this cause,

put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken oceasionally or daily while exposed to the infection, that will be exercted from the system, and cannot accumulate in sufficient quantity to tipen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy af-

Ayer's Cathartic Pills, FOR ALL THE PURPOSES OF A FAMILY PHYSIO, are so composed that disease within the range of their action can rarely withstand or eva c them. Their penetrating properties search, and declares, and invigorate every portion of the human organism, correcting its diseased action, and tesneing its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is ast mished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: Costneteness, Hearthurn, Headache arising from disordered Stomach, Nausea, Indigestion, Plan in and Horbid Inaction of the Boreels, Flatulency, Loss of Appetite, Jaundice, and other kindred complaints, arising from a low state of the body or obstruction of its functions.
